4 Types of pages you can make

All pages will have the question on top (this will be your heading)

You can have any/all Four types of pages in your book if you want too :)

- 1st type of page: Answer only
- 2nd type of page: Answer with image that's labeled
- 3rd type of page: Answer with large image (with or without captions)
- 4th type of page: Answer with small image and details (with or without captions)

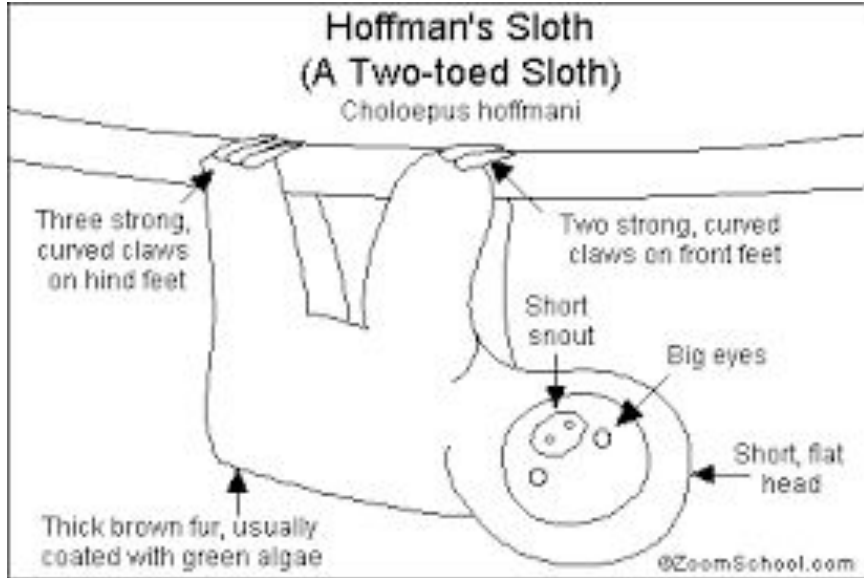

Images may be hand drawn or image from the computer!

What do sloths look like?

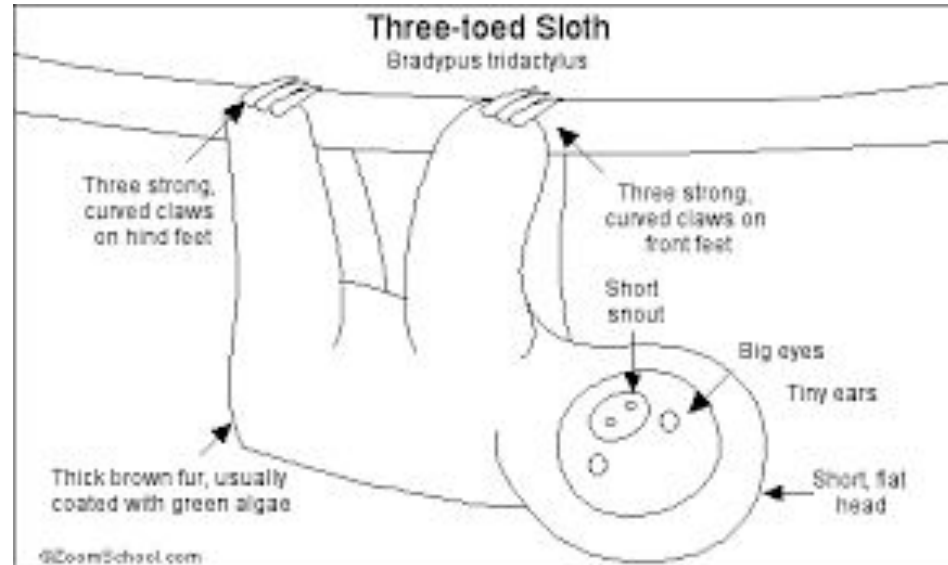

Did you know that sloths are furry animals that look a little bit like monkeys. Sloths have long arms with long hooked claws. They have round heads with small mouths and ears. When you look at their eyes it looks like they're sad. They also have a short tails. They're small and weigh about 9 pounds.

Types of Sloths

There are two types of sloths, two toed and three toed sloths.

This is a two (2) toed sloth.

This is a three (3) toed sloth.

Where do sloths live?

Sloths live in the tropical forests on tops of the tallest trees in Central and South America.

The yellow part shows where the sloths live.

What food do sloths eat?

Sloths eat plants and fruit. They get water from juicy leaves.
